ON KEY UI Guide

Color Palette

Brand Colors

USAGE
User definable colors, used to create a custom theme.

BrandDark
RGBa 57, 66, 88, 100
Hex #394258

BrandLight
RGBa 255, 209, 45, 100
Hex #FFD12D

UI Colors

USAGE
Non-definable colors. These are the base colors of the UI, used to frame various UI elements as well as most of the text.

UI1
RGBa 41, 41, 41, 100
Hex #292929

UI2
RGBa 207, 210, 217, 100
Hex #CFD2D9

UI3
RGBa 240, 242, 245, 100
Hex #F0F2F5

UI4
RGBa 255, 255, 255, 100
Hex #FFFFFF

Auxiliary Colors

USAGE
These colors are used to convey various messages i.e. Success, Warning, Selected, etc. These colors are also user definable as the meaning of a color can vary depending on which part of the world you're in.

Highlight
BrandLight

Warning
RGBa 255, 74, 74, 100
Hex #FF4A4A

Success
RGBa 129, 209, 42, 100
Hex #81D12A

Link
RGBa 74, 144, 226, 100
Hex #4A90E2

Opacity

USAGE
To create contrast we make use of key opacities i.e. 100%, 80%, 50%, 30%. Opacities will be denoted with a **_value** at the end of a specified color e.g. BrandDark_**80**.

| 100% | 80% | 50% | 30% |

Color Palette
